GREAT NORTH WOODS REGION

North of the "Notches" you'll travel into the Great North Woods. This region of the State is the least populated and certainly one of the most scenic. The rugged mountainous terrain of the Presidential Range wanes near Gorham and the state's real wilderness begins. Many roads in this region, while not yet heavily traveled by tourists, have logging and other truck traffic. Keep this in mind as you travel through this rural area. The scenery is dominated by winding rivers, clear lakes, tree lined mountains and great expanses of northern forestland. You'll find the routes generally hilly and lightly traveled compared to the roadways further south. This map is part of a 7 map series based on the State's 7 Tourist Regions.
